I TOLD MY HOMIE I HAD DREW SOME PIGEONS
AND WAS FEELING LIKE IT COULD BE THE ROOT OF FUTURE SUBMISSIONS
IT'D BE COOL TO DRAW A THOUSAND AND LAYOUT A BOOK OF SKETCHES
HE SAID "HOW MANY YOU GOT?" I SAID "LIKE 6 OR 7"...
'WHAT?!' HE SAID "A THOUSAND IS A LOT"
"I KNOW, THAT'S WHY IT'S GOTTA BE AN ACTUAL THOUSAND ON THE DOT
I HIT 'EM WITH THAT THOUSAND TO MAKE UP FOR WHAT THEY NOT
ONCE YOU MIX THAT MANY BODIES IT BECOMES ABOUT THE FLOCK."
HE TOLD ME "IF YOU DO IT, ITS A CRUISE TO MANUFACTURE"
I TOOK IT AS A CHALLENGE, BUT REGRETTED IT SOON AFTER
SEE THE POINT WAS ALWAYS CELEBRATE THE INDIVIDUAL VESSEL
THAT I PITCHED A PACKAGE DEAL AT ALL IS PRETTY DISRESPECTFUL
PLUS A THOUSAND IS A LOT
SOMETIMES I GET EXCITED BEFORE REALLY SIZING UP THE JOB
I THINK I DREW LIKE ONE MORE ON A RED-EYE INTO QUEENS
I AIN'T EVEN MAKE A DOZEN, I'VE BEEN EYEING OTHER THINGS

GOD BLESS AMERICA

Just a ghost in a human suit
Struggling to navigate the loop-d-loop
Eyes shut tight hoping that he executes
He does, but only by skin of a tooth
Now even though he speaks the truth
It seams the receiver's got screws loose
That or the genie's out of juice
Evidenced by 'That does not compute'
Though no one is listening, he preaches anyways
grinding with gutterscum, swift summer days
But current nest rejects the way he prays
Probably cursed, at least that's what the legend says
So please stop encouraging his building up the maze
And quit reminding him about which lie was your fave
Rather, exercise the specter to the gutter where it stays
We'll return to purity, at least until saturday
I tried to push-start it uphill
The ends couldn't pay off what the means had billed
Ready, aim, fire to kill. No, this is not a drill
It's a hard to swallow pill
So pull the cord, release the anvil
Catapult the catch on the grill
I take mine with some pink in the middle.
I'm supposed to be in the other group
In need of rescue, radio the troop
Wiggle free then evasive juke
I told you that I'd fly the coop
But not in time. Here comes the nuke.
Double or nothin, first win was a fluke.
Just a ghost in human suit,
Struggling to navigate the loop-d-loop.

STUFF THAT KEEPS ME UP AT NIGHT

Let's get uncomfortable. I believe most people if not all of us deal with anxiety of one sort of another. The number of things people spend their time worrying about is unquestionably large, but also the intensity of how worry is experienced seems to range wildly. Today, I will tell you what keeps me up at night. So if you are interested in adding some existential dread to your life, read on...

Consider if you will, Earth's atmosphere. The air we breathe is a mixture of oxygen, nitrogen, hydrogen, carbon dioxide, carbon monoxide, as well as trace amounts of various other compounds. Some of these compounds are lighter or heavier than others. This is why we need to pressurize airplanes, because there is not enough oxygen to sustain human life at elevations above approximately 8000 meters above sea level as oxygen is heavy relative to much of the rest of the mixture. so one can imagine the atmosphere in layers with heavier layers settling lower than those of lower density. Now consider the oceans of earth. I argue, the bubble we inhabit continues to the depths of the ocean floor. This gives me a sense of being stuck. Stuck on some narrow layer of habitability, constantly surrounded by the crushing weight of the atmosphere I feel akin to a crab, without a shell.

Irrational claustrophobia is maybe the most accurate way I can describe this. But when has rationality ever stopped something from manifesting itself in reality?

Next we'll discuss a topic that is a bit more universal, loneliness. I'm talking about true loneliness. Its not craving intimacy and its not the desire for companionship, but a truer deeper and (as previously mentioned) universal loneliness.

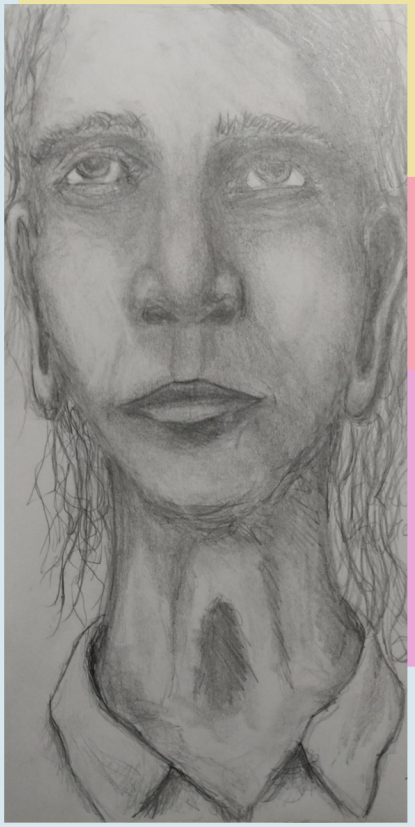

I've heard the saying (put several different ways) 'One day we'll all die alone'. I believe this is true. Death is a journey we must each individually. What I think is not talked about very often though is not that we die alone, but that really, we live alone. How well can we ever actually know someone when their experience is 100% unique to them and that experience makes up 100% of their reality. Just like mine. Just like yours.

You will never truly be able to express yourself fully to another person. I can't show someone something and have any real expectation that they will see what I see. In the very best case scenario it will be a juxtaposed view through the lens of their reality. And just like everything you'll read in The Junk Journal, I'm not sure what to do with that information. But it seemed like data worth storing. And data worth storing is data worth sharing. -Stay well-

For the sake of the argument, lets imagine that time is circular. Which for all we know it may very well be. This would imply that there is no begining and there is no end.

Reincarnation is implied as well, though not in the same sense that is typically imagined. I.e. Ones life force being transferred to a new vessel upon death. But rather that upon death nothingness is all that remains. That is, until time comes full circle and you find yourself born again. Born to the same parents, in the same hospital, in the same city. You'd live in the same houses and attend the same schools. Destined to make the same mistakes, love the same foods, to live the same life. over and over and over again.

Lights go out, curtains close, the bucket has been kicked. Then poof... back in the white room being slapped into conscienciousness by some M.D.

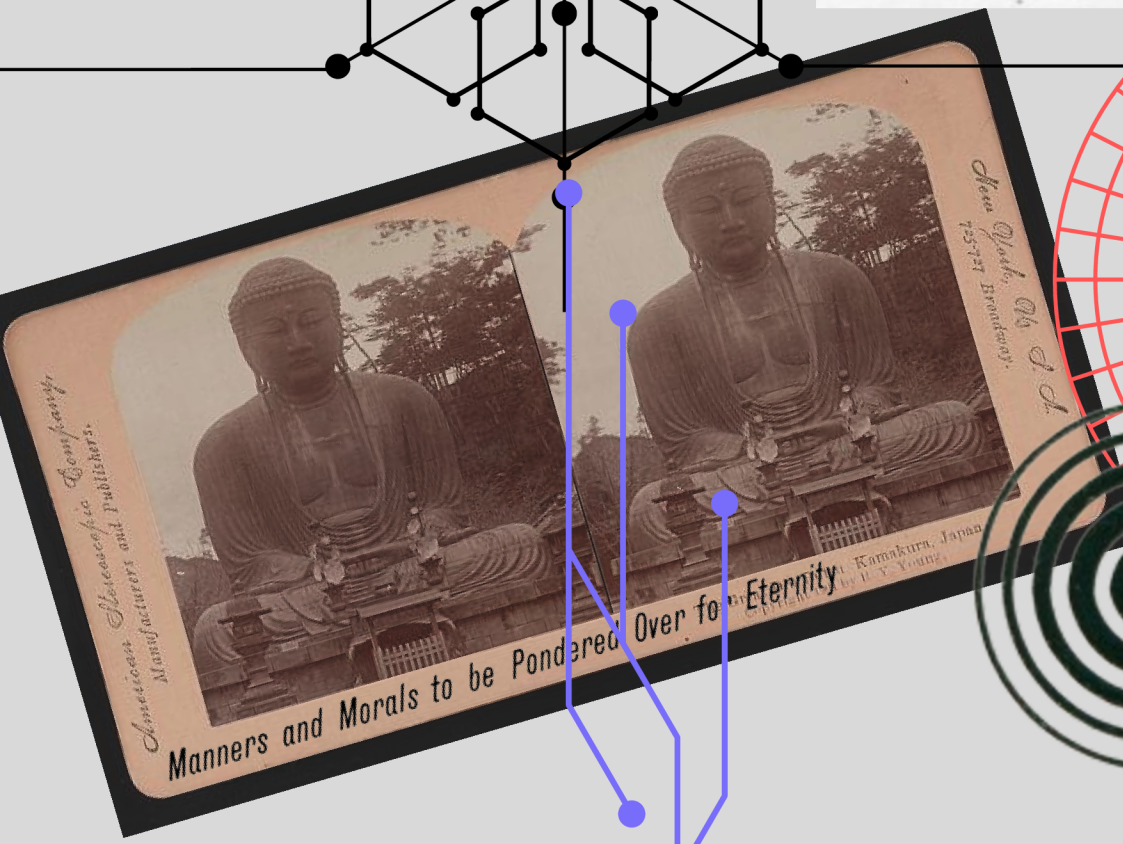

The thought to me is suffocating, Like being trapped in an eternal groundhog life.

Dead People

are walking around in our midst all the time; dead to ambition, enterprise and progress, they never get on, and live and go down in obscurity and poverty. Live people should write Stinson & Co., Portland, Maine, and learn how to make $1 and upwards per hour. All is free, and after learning all, should you conclude not to engage, no harm is done. You can live at home and do the work. Either sex, all ages. A great reward awaits every worker. Write and see. Capital not needed; you are started free. All can do the work. Hilario A. Zayas, Engineer and Cuban Representative.

This Company incorporated with an authorized capital of $1,000,000, composed of some of the most successful and shrewdest business men of New York and other States, who see far seeing enough to know how vast wealth to be made in Cuba within the next few years are securing immense tracts and preparing on that beautiful and fertile Island.

They are incorporated for the purpose of **buying, selling, improving and cultivating Lands in Cuba**, farming, planting and constructing **Steamship Lines, Railroads, Mills, Factories, Hotels, Docks, Plantations, &c.**

Our real estate experts are now purchasing tracts of land, in Cuba, for the growing of Sugar, Bananas, Pineapple, Coffee, Fruit, and Vegetable Lands.

While the chief object of starting all of this land work **fifty times its present values**, they have inaugurated the **most gigantic and liberal colonization enterprise** in the history of the world.

With a broader business policy than has characterized any similar enterprise the Company proposes to give away all of the above-named House lots, Business lots and Plantations of from **2 1/2 to 10 acres, absolutely Free to found an American colony.**

THE LAND ABSOLUTELY FREE.

No charge is made for the land for **making deed, notary fee, taxes or other so-called expense**, but we require all to send **25 cts.** when application is made. This amount is simply to help pay cost of this advertisement, postage and **handsome illustrated book on Cuba—its climate, soil, tobacco, sugar and fruit culture.** Each applicant can receive a Warranty Deed for a **Plantation, or a House or Business Lot**, as he or she may choose. You are not obliged to have the deed executed if our proposition or location of land does not suit you and in that case **the 25 cents expense money will be refunded.**

The Plantations and lots to be given away will consist of only one-half of the property, the remaining **four-fifths** we shall sell for the Company's profit, to be used in developing and **enormously increased values.**

Large and diversified ownership, by energetic and enterprising Americans, will make all of our property worth, in five years, fifty times what it is to-day—hence our effort. Such a field of wealth has never before been opened. It may mean a **fortune to you**, it certainly means happiness, comfort, and a competence to those who accept our offer **now.**

$300 to $1500 PER ACRE,

can be made from Cuban land, raising **Sugar, Tobacco, Coffee, Oranges, Cocoanuts, Pineapples, Bananas, Figs, Citrus**, and all early vegetables. Three crops per year. No frost, a beautiful, healthful climate, under **American system of government;** a life on the richest and most fertile Island in the world. **Forty acres will make you a fortune in a few years.** Five acres a competence for life. We start you on the road to Ville. Why toil, and starve, and freeze, when, by at once taking advantage of this offer, you can reap a golden harvest, and live a life of comparative ease.

PLANTATIONS SET OUT AND CULTIVATED.

The Company will set out and take care of Plantations for those who are not in a position to attend to it personally. After two years a Paying Plantation will be yielding you **$1,000 yearly,** and after five years **over $8,000.** Think of it! Our office is open to all except cities or large towns of 25,000 inhabitants. We want people with ambition and energy. Those who have something and want to see that something grow into a splendid and easy livelihood.

CONDITIONS. There are absolutely **NO conditions** that cannot be complied with by any honest man or woman. You are not required to move there, to improve in any way except as your own pleasure, though we prefer that you should.

EXCURSIONS will be run several times yearly after the present one, by steamships, for the benefit of stockholders and land owners. These excursions will be either given in one of our own steamships, or one chartered for the purpose at actual cost of transportation and food.

TO-DAY is the day to answer this advertisement to secure the full benefits. Should your application be too late to receive the full benefits then the money will be returned. Send 25 cents, stamps or silver.
